

The Burnie Coffee House is a not-for-profit initiative which provides work experience opportunities for local Jobseekers undertaking hospitality and tourism qualifications. Our concept is unique in Tasmania and is focused on skilling local jobseekers with nationally recognised qualifications and helping build their confidence and work skills so that they can enter the workforce as job-ready.

The Burnie Coffee House is supported by our partners, Innovative Program Solutions Limited, a not for profit company, and Outside the Square Solutions, a nationally registered training organisation based right here in Burnie. We also have tremendous support from a host of local businesses who are listed on our window of supporters. The Burnie Coffee House receives no Government funding.

With unemployment extremely high in our region we made the conscious decision that we wanted to be part of the 'solution' and invest into our own local community. We believe the work experience and qualifications local jobseekers can secure through their involvement at The Burnie Coffee House that we are assisting the North West Tourism and Hospitality Industry by delivering the industry 'job-ready' candidates.

Not only do we provide work experience and training opportunities for local jobseekers, for every coffee or cold beverage sold, 30 cents from the sale is put back into local youth and community programs. So by visiting The Burnie Coffee House and making a purchase you are not only supporting local jobseekers, you are also supporting local youth and community programs.

We pride ourselves on delivering great customer service to our customers and we hope your experience at The Burnie Coffee House is a positive one. Given our work experience team are jobseekers and may have limited experience we kindly ask you to support them and us.
